GO HIGH OR STAY LOW

WHETHER YOU HUNT FROM ABOVE OR LURK AT EYE LEVEL, HERE ARE FIVE OPTIONS TO INCREASE YOUR ODDS.

1 | Fargason TreeHut Adds Concealment

The TreeHut has an innovative, lightweight, spring steel camouflage tent canopy that allows for simple setup. Designed for use in extreme hunting conditions and when weather turns for the worse, its water-resistant canopy and shell provide comfort and protection for long days a field. Designed for one-man use, the lightweight four-pound TreeHut measures 32x72x45 inches and offers 60 cubic feet of space to maneuver in and stretch your legs, with a black interior and optional 3-D Leaf Camouflage: \$99, (800) 828-1554; fargasonoutdoors.com

2 | Hunter's Specialties' Boiler Room

The Boiler Room ground blind has a 76x76x69-inch interior. The blind has camouflaged windows on four sides, offering 360-degree visibility if desired. The split window coverings with interior blackout panels can be dropped down to expose the right amount of shoot-through mesh for every hunting situation, and it features eight tie-down points stakes and four ropes to secure the blind in almost any weather. The blind comes in Realtree AP camo with sewn-on loops for adding natural brush for ultimate concealment: \$300, (319) 395-0321; hunterspec.com

3 | Gorilla Size, Hunter Ready

Comfort, security and concealment are taken to new heights with the introduction of the Pro-Series Greyback Deluxe Hunter climbing stands from Gorilla. The convertible stand features the exclusive Gorilla Grip pivoting arms that adjust to trees from 8-20 inches in diameter, providing secure climbing in a variety of situations. The stand also features the Silen-Tech noise-reduction coating, ultra-quiet nylon bushings and Mossy Oak Treestand and Mossy Oak Treestand pattern was designed specifically for hunting from an elevated position, effectively erasing the outline of an elevated hunter: \$150, (877) 685-7817; gorillatreestands.com

4 | Gorilla Hangs Light

Gorilla's Silverback Scout is an ultralight hang-on stand designed for serious backcountry hunters. With a 3-inch dual-density camo cushion seat and fully adjustable backpack straps, this stand packs a ton of comfort into a compact, ultra-light design. The aluminum Silverback Scout weighs in at a light 8.5 pounds and features a 18x24-inch platform, Easy-Cinch dual claw strap and fully adjustable backpack straps: \$110, (877) 685-7817; gorillatreestands.com

5 | Hunters' Safety Saving Lives

The Hunters Safety System Pro Series is the Pinnacle of safety harness design, featuring all the comfort, ease-of-use and quality found in every HSS harness with one notable exception: cooling ventilation. Constructed of a lightweight, super-tough mesh material, the Pro Series promotes air flow, providing welcome relief on warm hunts. Its wide range of adjustability allows the safety system to be used not only on warm days but also over heavy outerwear during those cold, late-season evenings. The Pro Series offers newly designed leg straps that cradle the entire body should a fall occur. This saddle-like style offers unparalleled stress reduction to key points across the thighs, legs and hips. Adding to the safety features is the free-suspension relief strap that doubles as a hands-free deer drag. Break-away stitching in every HSS tether aids in protecting the hunter from the shock of a sudden, impacting stop during a fall. Safety first, last and foremost with all HSS products: \$135, (256) 773-7732; huntersafetyssystem.com
