

Bow & Arrow 2009 Gear Guide

BOW & ARROW HUNTING'S 2009 GEAR GUIDE

SCENTITE MAGNUM TENT CHAIR BLIND

The new Magnum Tent Chair Blind provides plenty of interior space for owhunters to sit comfortably. Its water-resistant camouflage shell blends into the surroundings, while the black interior hides any movement inside. It sets up in seconds and features an oversized folding chair (capable of holding up to 350 pounds) with armrests and a beverage holder. It also includes the camouflage outer shell, lightweight spring-steel frame and a carrying case with shoulder strap. When it's time to move, all the components quickly and easily collapse into the provided backpack-style case. Visit www.scentite.com.

SITKA GEAR AVAILABLE IN OPTIFADE CAMOUFLAGE

Sitka clothing will now feature Gore's Optifade Concealment (www.optifade.com), which is the first-ever visual concealment pattern based on how deer and other ungulates see, both spatially and colorimetrically.

F.L. Gore & Associates developed the pattern in collaboration with experts in animal vision and camouflage technology. In contrast to mimicry camouflage, which attempts to make the hunter closely resemble his environment, Gore's technology aims to prevent the animal from recognizing a hunter as a predator, even if the hunter is detected. Visit www.sitkagear.com.

GORILLA PRO SERIES KING KONG LOUNGER AND SILVERBACK

Gorilla unveils a new line of hang-on treestands, designed to provide greater comfort and portability. New features include XPE foam seats, HX platform design, and D-tube construction. Certain models come with the advanced XLS Extreme Leveling System. Visit www.gorillatreestands.com.

SCENT KILLER FIELD WIPES

Use these wipes to clean and deodorize or just touch up high-perspiration areas. They are made with a special Anti-Odor formula for your body and are enriched with vitamin E and Aloe. Visit www.wildlife.com.

MTM ARROW-PLUS CASE

The Arrow-Plus Case keeps up to 36 arrows secure and protected for both travel and storage. It features four accessory compartments, a large comfortable handle with a built-in broadhead wrench, and strong snapping latches. Comes in black or clear smoke. Visit www.mtmcase-garri.com.

AXCEL ARMORTECH-HD BOWSIGHT

This new bowsight was engineered for serious, hard-core bowhunters. It has many great features, such as tool-less windage and elevation thumb locks, individual micro-pin adjustment, and Armor Fiber Technology, which provides 100 percent protection to fibers that are fully enclosed inside tubing. It is 2nd- and 3rd-axis adjustable. Visit www.axcelsights.com.
